Version : October 2026

Dear Customers,

Below is the Declaration concerning Regulation (EU) 2025/40 of the European Parliament and of the Council on Packaging and Packaging Waste (PPWR)

Article 5 (4) and (5) of Regulation (EU) 2025/40, establish two distinct requirements:

(i) a maximum limit for the combined concentration of heavy metals (Pb, Cd, Hg and Cr(VI)) as set out in Article 5(4), applicable to all packaging, and

(ii) specific PFAS concentration limits as set out in Article 5(5), applicable to food contact packaging

We would like to inform you that all steel products from our ArcelorMittal Global Solutions Industeel plants below-mentioned and intended to be used as packaging material comply with the regulatory requirement (i). The sum of lead, cadmium, mercury and hexavalent chromium present in our products does not exceed 0.01% w/w (100 ppm).

- Industeel Le Creusot
- Industeel Belgium
- Industeel Loire

Detailed compliance sheets by packaging type are currently being drafted. They will be available on request to provide comprehensive details on each of the consumables used.

ArcelorMittal Global Solutions Industeel
