**Renewal of ABS Quality Assurance Approval
Steel Plant and Process Approval to Supply Steel Plates
ABS Approval of SA INDUSTRIEL BELGIUM, Charleroi, Belgium**

Further to your request and to the ABS Quality Assurance Quality System Audit and to the ABS Quality Assurance Rolled Steel Product Quality Audit, documents AN3194074, carried out at SA INDUSTRIEL BELGIUM, Charleroi, Belgium dated 14 September 2016, we advise that all requirements for plant and product approval under the Bureau's Quality Assurance Programme for all ABS grades are fully met.

To maintain approval of the quality assurance system steel mill will undergo annual audits and periodic audits, as described below:

Annual Audit - An audit is to be carried out on an annual basis (within 1 month of the yearly anniversary date)

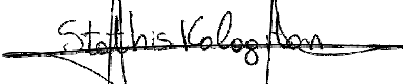

Periodic Audits – Two (2) periodic audits are to be carried out in each year, except that the annual audit may replace one of the periodic audits.

The approval is valid for five years and it will expire on 07 September 2021. Please note it is the responsibility of the facility to inform ABS of any changes to the manufacturing parameters and request renewal of approval prior to the five year expiry date. Our invoice to cover the cost of the technical review is subject to a separate correspondence.

An electronic copy of the drawings, appropriately stamped, is available through the ABS Eagle Construct Engineering Manager (O2E) Web portal. If you need to contact ABS regarding this review please email Nina Edmonds at nedmonds@eagle.org or Nikolaos Vrelllos at nvrelllos@eagle.org.

Very truly yours
